

TFS Europe B.V. is launched in Nijmegen, the Netherlands ~ 100% subsidiary of Tokyo Future Style, Inc.

Tokyo Future style, Inc., Tsukuba City, Ibaraki Japan, launched their 100% subsidiary, TFS Europe B.V. in Nijmegen, the Netherlands. It is officially registered at Chamber of Commerce in Eindhoven on April 12, 2017.

Tokyo Future Style, Inc opened their Euro office at SMB Life Sciences at the Novio Tech Campus, Nijmegen in April 2014. And that office focused to expand the market for the Japanese Venture developed products in Europe area and introducing the novel and unique products and technologies from Europe to Japan. In parallel, Tokyo Future Style decided to upgrade this office to company to accelerate their activities.

Tokyo Future style is an international trading company started up in 2007, and they undertake various activities in the biotech industry. The core business is helping small Japanese Bio-venture companies to step up in markets outside Japan. On the other hand Tokyo Future Style introduces foreign companies with innovative knowledge products and technologies into the Japanese market.

In these years, their important business is to combine bio-venture companies and SMBs from industry and universities from academia. The mission of the company is to market globally the products which are invented, developed and manufactured within their venture network involving academia.

TFS Europe intend to expand this activities in Europe area as well.
